

3314 BASEBALL SCOREBOARD

GREAT FACILITIES HAVE GREAT SCOREBOARDS

Your scoreboard is a source of pride for your facility. It's also a time capsule – a snapshot of our highlights and heartbreaks, broadcast in LEDs and etched into our minds forever. Varsity Scoreboards provides affordable, high-quality scoreboards that give you everything you need and nothing you don't, allowing you to focus on what matters most: the game itself.

SCOREBOARDS BUILT TO LAST

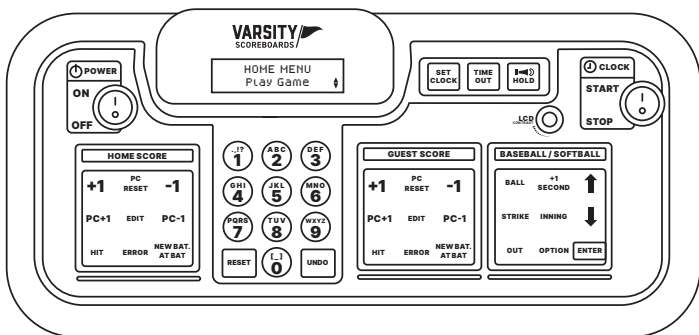

Our scoreboards are out in the elements all year long, so they have to be built to handle it. Every scoreboard we sell goes through a thorough inspection to ensure they live up to our standard of quality and durability.

- Powder-coat finish produces a long-lasting and durable finish that is both protective and decorative.
- Galvanized steel cabinets offer excellent abrasion and chip resistance. They provide corrosion and rust protection, require little to no maintenance, are reliable for years, and are extremely resistant to damage.
- Protective polys guard the scoreboard digits against inclement weather, dust, bugs, and are also impact-resistant.

SCOREBOARDS YOU CAN RELY ON

A Varsity scoreboard is an investment you can depend on for years to come because we design them to withstand the most demanding test of all: time.

- Our LED Digits are rated to 100,000+ hours, have 160-degree visibility, and allow for adjustable intensity.
- 5-year warranty: We know our scoreboards to be reliable and durable, but if something happens, you're covered under a 5-year warranty

THE WIRELESS CONTROLLER

EASY-TO-USE CONTROLLER. NO HAND-HOLDING REQUIRED.

Never worry about who is scoring a game again. Our durable wireless controllers make running the game a breeze, so you can focus on coaching – or cheering.

- The wireless controller uses a 2.4 GHz Wireless System and internal battery pack with a built-in charger that eliminates the need for control cable and junction box installation.
- No wires mean that the scorekeeper is able to sit in the stands while scoring the game.
- Designed for a quick setup and easy enough for a parent or volunteer to use.

24/7 TECHNICAL SUPPORT

When you need help, you don't have time to wait. We always have someone on standby ready to assist you with whatever you need to get gameday started on time.
